The Investment Manager

Impax Asset Management

Founded in 1998, Impax Asset Management is a specialist asset manager focused on investing in the transition to a more sustainable global economy. Impax is headquartered in the UK.

As at 31 December 2020 Impax's total assets under management and advice is AUD\$44.8 billion.

Impax believes that

- Capital markets will be shaped profoundly by global sustainability challenges, particularly climate change, environmental pollution, natural resource constraints, demographic and human capital issues such as diversity, inclusion and gender equity.
- These trends will drive growth for well-positioned companies and create risks for those unable or unwilling to adapt.
- Fundamental analysis which incorporates long-term risks, including environmental, social and governance (ESG) factors, enhances investment decisions.

Impax invests in companies and assets that are well positioned to benefit from the shift to a more sustainable global economy.

Impax is exempt from the requirement to hold an Australian financial services license by operation of ASIC Class Order 03/1099: UK FCA regulated financial service providers, as modified by ASIC Corporations (Repeal and Transitional) Instrument 2016/396.

2. How the Impax Sustainable Leaders Fund works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets of the Fund subject to liabilities; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by completing the Application Form that accompanies this PDS. The minimum initial investment amount for the Fund is \$25,000.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Impax Sustainable Leaders Fund
GPO Box 804
Melbourne, VIC, 3001

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.30%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by sending us your additional investment amount together with a completed Additional Investment Form. There is no minimum additional investment into the Fund.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at 30 June. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their AUD Australian domiciled bank account.

Investors who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested (refer to the Impax Sustainable Leaders Fund New Zealand Investor Information Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Impax Sustainable Leaders Fund
GPO Box 804
Melbourne, VIC, 3001

Or sending it by email to fidante_transactions@unitregistry.com or sending it by fax to +612 8244 1918

The minimum withdrawal amount is \$50. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 3 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.30%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Impax Sustainable Leaders Fund

Deep knowledge of sub-sectors: Impax is one of the longest established asset managers dedicated to investing in resource efficiency and environmental markets, and is widely acknowledged as a thought leader within these markets.

Client focused investment strategies: Impax has developed a proprietary universe of companies where the underlying revenue generated by sales of environmental products or services has been assessed so that clients are able to understand the exposure of their total portfolio to these end markets.

Investment Insight: The principal driver of differential investment insight is the strength of Impax's investment team. Impax has one of the largest investment teams globally dedicated to fundamentally driven investments in the environmental and sustainability oriented markets. Impax's investment team comprises individuals with diverse backgrounds, bringing together complementary skills and experience which adds depth to the investment process. This includes highly experienced portfolio managers, scientists, former business analysts, venture capitalists, and regional and legislation specialists.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity, Distributor and Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Active Management Risk

Impax does not invest in a predetermined basket of securities, such as a basket of securities that reflects an index, but instead selects securities that meets its investment criteria. This carries with it the risk that the Fund may underperform the market generally.

Company Specific Risk

The value of investments can vary because of changes to a company's management, internal operations, product distribution or the company's business environment. Returns are affected by the underlying strength of the cash flows, balance sheets and management of the companies in which the Fund invests. An investment in shares carries the risk of a decline in value or a decrease in, or failure of payment in, distributions because of a number of factors, including a fall in investor confidence, poor management or changes in a company's competitive environment or internal operations.

Concentration Risk

The concentrated nature of the investments of the Fund will reduce the potential benefit of diversification for the Fund. The potential benefit of diversification is to reduce volatility of investments. As the Fund has a concentrated portfolio of investments, the Fund may experience higher volatility than a more diversified portfolio.

Counterparty Credit Risk

Counterparty risk is the risk that any of the Responsible Entity's or the Investment Manager's trading counterparties, custodians, or any issuer or guarantor of securities held by the Fund, becomes insolvent or cannot otherwise meet their obligations to settle or repay money.

Currency Risk

Currency risk is the sensitivity of the portfolio value to movement in foreign exchange rates. Impax quantifies the risk of each individual security but does not actively manage currencies in aggregate for the Fund. Therefore, there is a risk that they may be adversely affected by currency movements.

Emerging Markets Risk

Emerging Markets are more likely to experience greater volatility than markets in developed countries. Securities traded in Emerging Markets also have more limited liquidity when compared to securities traded in developed countries. This means that those securities may fall more sharply and rapidly than securities traded in developed countries. Further risks include differences in auditing and financial accounting standards, less regulated markets, less developed corporate laws and political risk.

Interest Rate Risk

Changes in official interest rates can directly or indirectly impact (negatively or positively) on investment returns. For instance, rising interest rates can have a negative impact on the Fund's or a company's value as increased borrowing costs may cause earnings to decline. As a result, the unit value or share price may fall.

Legal Risk

The Fund may be affected by the actions of governments and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations of which the public may not be aware. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the Fund from pursuing its strategy or which renders an existing strategy less profitable than anticipated. Such actions may take any form, for example, nationalisation of any institution or restrictions on investment strategies in any given market sector (for example restrictions on short selling in the financial sector) or changing requirements (for example increased disclosure to market) and imposed without prior warning by any regulator. This risk is generally higher in developing countries.

Liquidity Risk

There may be times when securities may not be readily sold (for example, in a falling market where companies may become less liquid). If this occurs and it results in the Fund becoming illiquid, withdrawals of units from the Fund must be processed only in accordance with the Corporations Act. Trading volumes of stocks are generally expected to be sufficient to satisfy liquidity requirements when necessary.

Neither the Responsible Entity nor the Investment Manager guarantees the liquidity of the Fund's investments.

Market Risk

The value of investments may fluctuate significantly over short periods of time. These fluctuations can be caused by changes in interest rates, economic cycles, investor sentiment, and political, social, technological and legal events. These changes can directly or indirectly create an environment that influences (negatively or positively) the value of the investments in the Fund. In addition, a downward move in the general level of the equities market can have a negative impact on the performance of the Fund.

Operational Risk

Operational risk addresses the risk of trading and back office or administration issues that may result in a loss to the portfolio. This could be the result of oversight, ineffective security processing procedures, computer system problems or human error. The Responsible Entity and the Investment Manager have instituted certain practices and processes within their respective operations and business administrations designed to wherever possible mitigate the operational risk consequences that arise.

Political Risk

There may be high political risk in certain countries due to the fragile political environment of those countries. Political instability and/or political disturbances are more common in Emerging Markets than in developed nations. There may be higher economic risk from policy mistakes, as governments are less accountable than in developed nations. Examples of severe currency depreciation have also occurred in some nations.

Stock Selection Risk

Impax may make poor investment decisions resulting in sub-standard returns (for example where Impax invests in a company that significantly underperforms the share market). This risk is mitigated to some extent by the knowledge and experience of Impax and the diversification of stocks held in the portfolio.

Fund Risk

As with all managed funds, there are risks particular to the Fund including: that the Fund could be terminated, the fees and expenses could change, that Equity Trustees is replaced as Responsible Entity or that the Investment Manager is replaced. There is also risk that investing in the Fund may give different results than investing directly in the securities because of income or capital gains accrued in the Fund and the consequences of withdrawal by other investors.

5. How we invest your money

Warning: When choosing to invest in the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Impax Sustainable Leaders Fund seeks to achieve sustainable, above market returns over the longer term by investing globally in companies active in the growing resource efficiency and environmental markets. The Fund shall invest in equities of companies with at least 20% of revenue, profits or capital employed in environmental markets. Environmental markets include renewable & alternative energy, energy efficiency, water infrastructure & technologies, pollution control, waste management & technologies, environmental support services, and sustainable food, agriculture & forestry.

Benchmark

MSCI All Country World Index Net Dividends Reinvested measured in Australian Dollars

Minimum suggested time frame

The minimum suggested timeframe for the Fund is 5 years.

Risk level

High.

There is a risk investors may lose some or all of their initial investment. Higher risk investments tend to fluctuate in the short term but can produce higher returns than lower risk investments over the long term.

Investor suitability

The Fund is designed for investors seeking to achieve sustainable, above market returns over the longer term by investing globally in companies active in the resource efficiency and environmental markets.

Investment style and approach

Impax's investment philosophy is based upon the premise that the most profitable approach to listed equity investing is to invest in companies that operate in markets where there are long-term themes that underpin growth and where those companies are poorly understood and, therefore, inefficiently priced to provide opportunities for a specialist active manager to add value. Impax's listed equity strategies seek out mispriced companies that are set to benefit from the long-term trends of rising global populations and wealth, changing demographics, urbanisation, increasing consumption, and the resultant increases in resource demand. Investment is focused on a small number of deeply researched global equity strategies across energy efficiency, alternative energy, water, waste/resource recovery, food and agriculture related markets. Companies in these markets are generally characterised by high levels of corporate activity, low levels of sell-side coverage, rapid technological innovation and regulatory momentum. This means that the sectors Impax invests in are complex to understand and challenging to navigate, leading to a prevalence of mis-pricing that Impax seeks to exploit through a specialist focus and expert team.

Asset allocation

The target asset allocation range is 90-100% global equities, 0-10% cash. Impax does not use currency hedging therefore the Fund is considered to be 'unhedged'.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

Environmental, Social and Governance ('ESG') analysis is an integral part of Impax's investment research process, providing risk mitigation and important insight into the 'character' of a company.

Impax's ESG analysis follows the materiality approach, which means assessing the most significant environmental and social risks for a company within the sector and activity in question. Impax looks for strong policies, processes and disclosures of ESG management systems to address these material risks. Detailed analysis of governance structures from a country perspective is also conducted.

Each company must be approved by the investment committee on these criteria before it enters a list of investable stocks.

The Fund will not invest in companies which have an exposure of greater than 5%, as measured by revenue, in the following sectors: pornography, alcohol, gambling, nuclear power, , and tobacco (note that the trust will not invest in companies with >0% revenue exposure to tobacco production, or which are assigned to the Tobacco Industry of the Global Industry Classification Standard. The Trust will not invest in companies with >0% revenue exposure to controversial weapons, being defined as anti-personnel landmines, cluster munitions, chemical, biological and nuclear weapons.

Impax has a policy of active engagement on ESG issues and regularly meets and engages with the management of investee companies in the course of the ongoing investment process, as well as regarding any specific issues of concern.

Fund performance

Up to date information on the performance of the Fund will be available by:

- calling Fidante Partners on 13 51 53 (during Sydney business hours) or +612 9994 7000 from outside Australia (during Sydney business hours); or
- visiting the Fidante Partners website at www.fidante.com.au.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following template can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account, deducted from investment returns or from the Fund assets as a whole.

TYPE OF FEE OR COST		AMOUNT
Fees when your money moves in or out of the Fund		
Establishment fee		Nil
Contribution fee		Nil
Withdrawal fee		Nil
Exit fee		Nil
Management costs		
The fees and costs for managing your investment ¹		Management fees: 1.10% p.a. of the NAV of the Fund ²

¹ All fees quoted above are inclusive of Goods and Services Tax (GST) and net of any Reduced Input Tax Credits (RITC). See below for more details as to how management costs are calculated.

² Management fees can be negotiated. See "Differential fees" below. Until further notice, the management costs are capped, except for extraordinary expenses. If the total management costs exceed the cap, the Investment Manager will reimburse the amount of the excess costs to the Fund unless the excess is due to an extraordinary expense, such as a significant but properly recoverable legal expense, in which case the expense would be incurred by the Fund and reflected in the unit price of the Fund, and in that way borne by the investors in the Fund.

Additional Explanation of fees and costs

What do the management costs pay for?

Management costs are comprised of the management fee, indirect costs and recoverable expenses that an investor incurs by investing in the Fund rather than by investing directly in the underlying assets of the Fund.

Management costs do not include transactional and operational costs (i.e. costs associated with investing in the underlying assets, some of which may be recovered through Buy/Sell Spreads).

The management costs of 1.10% p.a. of the NAV of the Fund are payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management costs are accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, ordinary expenses such as investment management fees, custodian fees, administration and audit fees, and other ordinary expenses of operating the Fund are covered by the management costs.

The management costs shown above do not include extraordinary expenses (if they are incurred in future), such as litigation costs and the costs of convening investor meetings.

Transactional and operational costs

In managing the assets of the Fund, the Fund may incur transactional and operational costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. This generally happens when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread reflects the estimated transaction costs incurred in buying or selling assets of the Fund when investors invest in or withdraw from the Fund. The Buy/Sell Spread is not an additional cost to the Fund but is incorporated into the unit price and incurred when an investor invests in or withdraws from the Fund and is not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a withdrawal and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.30% upon entry and 0.30% upon exit. The dollar value of these costs based on an application or a withdrawal of \$25,000 is \$75 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion.

Transactional costs which are incurred other than in connection with applications and withdrawals arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price. As these costs are factored into the NAV of the Fund and reflected in the unit price, they are an additional cost to the investor and are not a fee paid to the Responsible Entity. These costs can arise as a result of bid-offer spreads (the difference between an asset's bid/buy price and offer/ask price) being applied to securities traded by the Fund. Liquid securities generally have a lower bid-offer spread while less liquid assets have a higher bid-offer spread reflecting the compensation taken by market makers in providing liquidity for that asset.

During the financial year ended 30 June 2020, the total transaction costs for the Fund were estimated to be 0.20% of the NAV of the Fund, of which 100% of these transaction costs were recouped via the Buy/Sell Spread, resulting in a net transactional cost of the Fund of 0.00% p.a.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. Equity Trustees has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly. We will generally provide investors with at least 30 days' notice of any proposed change to the management costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Expense recoveries may change without notice, for example, when it is necessary to protect the interests of existing investors and if permitted by law.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its management fees and is not an additional cost to the investor. If the payment of annual fees to IDPS Operators is limited or prohibited by the law, Equity Trustees will ensure the payment of such fees is reduced or ceased.

Differential fees

The Responsible Entity or Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors.

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE – Impax Sustainable Leaders Fund

BALANCE OF \$50,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR

Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management costs	1.10% p.a.	And, for every \$50,000 you have in the Fund you will be charged \$550 each year
Equals Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, then you would be charged fees of: \$550 * What it costs you will depend on the fees you negotiate.

* This example assumes the \$5,000 contribution occurs at the end of the first year, therefore management costs are calculated using the \$50,000 balance only.

Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust (“AMIT”) and the choice is effective for the income year, are attributed to them.

Further reading

You should read the important information in the Reference Guide about Taxation under the “Other important information” section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or www.fidante.com.au. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

8. How to apply

To invest please complete the relevant Application Form accompanying this PDS, send funds (see details in the Application Form) and your completed Application Form to:

Impax Sustainable Leaders Fund
GPO Box 804
Melbourne, VIC, 3001

Please note that cash and cheques cannot be accepted and all applications must be made in Australian dollars.

Who can invest?

Eligible persons (as detailed in the ‘About this PDS’ section) can invest, however individual investors must be 18 years of age or over.

Investors investing through an IDPS should use the application form provided by the operator of the IDPS.

Cooling off period

If you are a Retail Client who has invested directly in the Fund, you may have a right to a ‘cooling off’ period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth business day after the units are issued.

A Retail Client may exercise this right by notifying Equity Trustees in writing. A Retail Client is entitled to a refund of their investment adjusted for any increase or decrease in the relevant Application Price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right of a Retail Client to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan, switching facility or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as an investor in the Fund during the 14 day period. This could include selling part of your investment or switching it to another product.

No cooling off rights apply to Australian Wholesale Clients or New Zealand Wholesale Investors.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of an investor in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS guide or similar type document will govern an Indirect Investor’s investment in relation to the Fund and any rights an Indirect Investor may have in this regard.

***Terms and conditions for collection of Tax File Numbers (TFN) and Australian Business Numbers (ABN)**

Collection of TFN and ABN information is authorised and its use and disclosure strictly regulated by tax laws and the Privacy Act. Investors must only provide an ABN instead of a TFN when the investment is made in the course of their enterprise. You are not obliged to provide either your TFN or ABN, but if you do not provide either or claim an exemption, you are required to deduct tax from your distribution at the highest marginal tax rate plus Medicare levy to meet Australian taxation law requirements.

For more information about the use of TFNs for investments, contact the enquiries section of your local branch of the ATO. Once provided, your TFN will be applied automatically to any future investments in the Fund/Trust where formal application procedures are not required (e.g. distribution reinvestments), unless you indicate, at any time, that you do not wish to quote a TFN for a particular investment. **Exempt investors should attach a copy of the certificate of exemption.** For super funds or trusts list only the applicable ABN or TFN for the super fund or trust.
